BAG FOR CONTAINING AN ARTICLE

Do not enter. 10/11/06

Technical Field

[0001] The present invention relates to a bag for containing an article including a gusset at a bottom portion thereof.

Background Art

[0002] Conventionally, bags for containing an article, which are bag bodies where necessary places of resin sheets having flexibility are adhered together with a heat seal or the like to form an article containing portion enclosed by the sheets, have been widely used. Among these, there are bags for containing an article including a gusset at a bottom portion thereof.

[0003] Bags for containing an article including a gusset are bags where, at the bottom portion of a bag body configured from a flat front sheet and a flat rear sheet, a bottom sheet that is continuous with the aforementioned sheets or is a sheet that is different from the aforementioned sheets is disposed.

[0004] The bottom sheet is, for example, folded in two at the inner side of the bag body—i.e., at the article containing portion side—so that the cross-sectional shape of the bag for containing an article at the bottom portion is formed in a "Σ" shape by the front sheet, the rear sheet and the bottom sheet. By disposing the bottom sheet folded in this manner, the bag for containing an article is such that it has a flat form in a state where an article is not disposed in the article containing portion, and the
